

FORTVNY®
Studio 1907

FORTVNY®

The 1907 Studio collection proposes the famous floor lamp designed by Mariano Fortuny in 1907 with new finishes.

Considered today as a contemporary icon, it was conceived with the aim of revolutionizing theatrical lighting. Its adjustable lampshade provides indeed an indirect and diffused light that is perfect for the stage, while its base is inspired by camera tripods.

The final result is a product characterized by a modern aesthetic, a statement piece that turns into the focus of any interior space and is selected by the best architects and designers from all around the world.
